

E103 Stereo Earphone (Under Chin)

- Under Chin wearing style to prevent chaos in your hairstyle
- 3,5mm L-Shaped stereo plug
- 3m long cable
- Frequency response optimized for the frequency range of the human voice
- Designed for professional audio transcription
- 25g light weight for long time usage
- Soft In-Earphone

Stereo transcription headset

Light weight stereo earphone especially designed for Transcription. The under chin wearing style allows to easily take it on and off. It provides a L-shaped 3,5mm jack, including 2 pairs of ear pads to exchange. The 3m long cable brings a lot flexibility to connect it to your Computer.
