OM SYSTEM

DS-9600 Digital Recorder

Professional, reliable dictation wherever you are – with Bluetooth connectivity

Dictate on the go and turn speech into text in real time via the ODMS Cloud mobile app.

- ✓ Bluetooth connectivity
- ✓ File transfer and **real-time speech recognition** via the ODMS Cloud mobile app
- ✓ **Beamforming microphones** optimized for speech recognition for greater accuracy

Dictate wherever you are with exceptional clarity and security

The DS-9600 combines professional-grade reliability with beamforming microphones optimized for real-time speech recognition. No typist – no problem!

- ✓ **Intelligent two-microphone system with audio beamforming**
- ✓ **Full color screen**
- ✓ **4-position slide switch control**
- ✓ **4 GB built-in memory SD card slot (up to 512 GB)**
- ✓ **Impact resistant body (drops of up to 1.5 m)**
- ✓ **Insert and overwrite recording modes**

File transfer via mobile app for a faster workflow

Keep work moving - transfer your dictations seamlessly via Bluetooth from the DS-9600 to ODMS Cloud using the mobile app.

Enhanced security for sensitive audio files – secure recording you can trust

256-BIT AES ENCRYPTION

Recordings are secured with 256-bit AES encryption, safeguarding sensitive data from capture to transfer.

4-DIGIT PIN LOCK

A 4-digit PIN lock adds an extra layer of security, making sure only authorized users can access your recordings.

DS-9600 Digital Recorder

Intelligent Dual Microphones Optimized for Speech Recognition

Built-in stereo microphones with unique audio beamforming algorithm - enhancing voice capture to improve speech recognition accuracy.

Choose from three sensitivity levels to optimize audio in any environment:

- ✓ High sensitivity: conference recordings
- ✓ Mid: dictation,
- ✓ Low: up-close recordings

Alcohol-Resistant Housing for Medical Environments

The alcohol-resistant coating allows safe cleaning and disinfection in medical environments:

- ✓ Ethanol for disinfection (76.9 to 81.4 v/v%)
- ✓ Isopropanol for disinfection (70 v/v%

The perfect addition to your DS-9600 device for a complete workflow

ODMS Cloud – flexible, simple dictation anywhere

Secure, cloud-based dictation and transcription that keeps your workflow moving - wherever you work.

- ✓ Record, upload, share and manage dictations with ease
- ✓ Access your workflow seamlessly across devices
- ✓ Share files securely and collaborate efficiently
- ✓ Stay productive anytime, anywhere
- ✓ Add real-time or back-end speech recognition for faster document creation

Choose from two options

Traditional Dictation & Transcription or Background Speech Recognition Workflows with DS-9600

Real-time Speech Recognition Workflow with DS-9600

*Also compatible with ODMS R8 (download only - not compatible with Bluetooth) and ODMS Cloud SmartApp
